PENNA. CUSTOMERS PLEASE ADD 3% PENNA. SALES TAX

Visit our Nursery, read our pamphlet and learn how to produce gorgeous azaleas, flowering shrubs, trees and evergreens from small PLANTS - WE - SELL.

Grow azaleas, they are not surpassed in their wealth of bloom by any other class of hardy shrubs. A lady in Atlanta bought 100 in 1938 and now has a large garden full of showy azaleas, some as big as 9 feet in diameter. Another customer bought 100 yews and now has a yew hedge 200 feet long, 3 feet high and 2 feet in diameter. Another bought a magnolia that after a few years bore over 500 flowers at one time.

These are the same plants the nurseryman uses to grow into plants selling for several dollars each.

These plants would cost considerable if purchased in large sizes, but if you try to continue what we have started for you, you will be overjoyed at your results in two or three years' time. Not only will you save considerable expense, but you will derive a great deal of satisfaction in watching these little specimens grow and develop under your own tender care. Try growing our plants in a nursery bed for a year or two before planting permanently.

The group containing Azaleas are very easy to handle if planted in part shade, provided either by a building or a lath screen; this should be elevated 4' to 5' on stakes to provide free circulation of air underneath. Plant in a soil mixture containing 50% good light garden loam and 50% granulated peat moss or oak leaf mould. Water well after planting and mulch with leaf mould or peat moss. Do not cultivate but pick weeds out by pulling. Do not allow ground to get dry, but do not water too much or too often, there is a happy medium. These plants will all do well in part shade and also in sun. Cut off 75% of light for first 6 weeks and then 50%.

For further instructions purchase Hotte's Book on Shrubs or Trees. We can supply either at \$4.00 per book.

For \$5.00 you can select \$6.00 worth of plants from this list. No orders of less than \$3.00 accepted. No broken lots will be sold. Prices per 100 are net - no discount.

Owing to our careful packing with wet peat moss - we do not pay postage. Kindly add 10% to ALL orders for Postage. Allow one substitute per 10 items ordered.

Don't delay - plan to try some of these small plants at once. If you put it off - you'll forget it, sure as shootin'!

**Azalea AMOENA** - Semi double purplish red flowers in profusion. Small evergreen leaves, turning beautiful bronze in fall - 3-5" - 3 for 50 cents.

- \* Alanwold Brick, vivid brick red flowers, semi evergreen, grows tall 3-5" 3 for 50c.

6" Plants - 50c each.

Most of our azaleas are branched and all carry a nice ball of soil.

Transplants of all Azaleas listed, except Japonica, Poukanensis and Schlippenbachi, at \$15.00 per 100. Transplants are a little larger than the 3 for 50 cent size.

In winter time American gardens present a dismal, naked sight that emphasizes the general dreariness of the season. Little of the beauty of spring, summer or fall remains. Yet it is so easy to change this with a few evergreen vines, shrubs and trees and some bright berried shrubs. With an attractive evergreen background, winter seems shorter and much more pleasant and nothing is a more beautiful sight than to see them partly covered with snow.

EVERGREEN TREES AND SHRUBS. Plant in any good soil. All should be well shaded for 2 months after planting with a lath shade or planted in part shade of a building. Mulch with either peat moss or leaf mould. Most of the following plants will make handsome specimens in three to four years.

- Blueberry - Cultivated, large edible fruits in quantity, brilliant red foliage in fall - 12-18" - 50c.
  - Abelia Grandiflora, semi evergreen with arbutus like flowers - 8-12" - 2 for 50 cents -
  - Buxus, Old English Boxwood - Fine green foliage, often found on old colonial estates - Old plants are very valuable - 3-4" -3 for 50c; \$10.00 per 100.
  - Buxus Japonica - Jap box - large apple green leaves - 3-6" - 5 for 50 cents - very hardy 6-8" - 3 for 50 cents - \$10.00 per 100.
  - Buxus-Sempervirens, American Box - dark green leaves grows faster than English Box, 4-6" - 4 for 50 cents. \$10.00 per 100.
  - Cytissus Scoparius - Scotch Broom, evergreen foliage, yellow flowers - A very unusual shrub - 6-8" - 1 for 50 cents.
  - Cryptomeria Japonica Lobbe Compacta - Japanese Temple Tree - different from any other evergreen tree - \$1.50 each.

  - Pachysandra Terminalis, 5 for 50 cents - \$6.00 per 100. Plant 6" apart.
- The picea or spruces are most attractive evergreen trees which introduce a horizontal note into landscaping and give a wonderful variety of color and shapes. Both Firs and Spruces make majestic trees, are very symmetrical and keep a good color in winter.
- PICEA EXCELSA - Norway Spruce, grows rapidly into a beautiful symmetrical tree. 4-7" - 3 for 50c.
  - PICEA PUNGENS - Colorado Blue Spruce - stiff blue needles, 3-6" - 3 for 50c.

Most Pines grow rapidly, some more rapidly than deciduous trees, making as much as 30 inches a year. Make good screens, backgrounds and the best possible windbreaks. With a good Pine border on the windward side, your home will seem 500 miles further south and you will be able to grow plants that are otherwise impossible. A windbreak of pines will make your home more comfortable and life more pleasant, by protecting it from the cold winds.

FRANKLIN TREE - very RARE. Large white flowers in summer with large gold centers - 3" pots - \$1.50 each.

PINUS MUGO - very dwarf, dark green needles - 3-4" - 3 for 50 cents.
